Warm . . . thought-provoking . . . charming . . . delightful. *Library Journal* (starred review) A book designed to leave its readers—and it deserves many of them—as happy as clams. *Walter Satterthwait, The New York Times Book Review* Luminously intelligent fun.

The New York Trilogy Paul Auster,2008-09-04 'One of the great American prose stylists of our time.' New York Times 'Auster really does possess the wand of the enchanter.' New York Review of Books The New York Trilogy is perhaps the most astonishing work by one of America's most consistently astonishing writers. The Trilogy is three cleverly interconnected novels that exploit the elements of standard detective fiction and achieve a new genre that is all the more gripping for its starkness. It is a riveting work of detective fiction worthy of Raymond Chandler, and at the same time a profound and

unsettling existentialist enquiry in the tradition of Kafka or Borges. In each story the search for clues leads to remarkable coincidences in the universe as the simple act of trailing a man ultimately becomes a startling investigation of what it means to be human. The New York Trilogy is the modern novel at its finest: a truly bold and arresting work of fiction with something to transfix and astound every reader. 'Marks a new departure for the American novel.' Observer 'A shatteringly clever piece of work . . . Utterly gripping, written with an acid sharpness that leaves an indelible dent in the back of the mind.' Sunday Telegraph

Stuff Randy O. Frost, Gail Steketee, 2010-04-20 The New York Times bestseller. "Gripping . . . By turns fascinating and heartbreaking . . . Stuff invites readers to reevaluate their desire for things."—Boston Globe "Amazing . . . utterly engrossing . . . Read it."—The Washington Post Book World What possesses someone to save every scrap of paper that's ever come into his home? What compulsions drive a person to sacrifice her marriage or career for an accumulation of seemingly useless things? Randy Frost and Gail Steketee were the first to study hoarding when they began their work a decade ago. They didn't expect that they would end up treating hundreds of patients and fielding thousands of calls from the families of hoarders.

Their vivid case studies (reminiscent of Oliver Sacks) in *Stuff* show how you can identify a hoarder—piles on sofas and beds that make the furniture useless, houses that can be navigated only by following small paths called goat trails, vast piles of paper that the hoarders “churn” but never discard, even collections of animals and garbage—and illuminate the pull that possessions exert over all of us. Whether we’re savers, collectors, or compulsive cleaners, very few of us are in fact free of the impulses that drive hoarders to extremes. “Authoritative, haunting, and mysterious. It is also intensely, not to say compulsively readable.”—Tracy Kidder, Pulitzer Prize-winning author “Fascinating . . . a good mix of cultural and psychological theories on hoarding.”—*Newsweek* “Pioneering researchers offer a superb overview of a complex disorder that interferes with the lives of more than six-million Americans . . . An absorbing, gripping, important report.”—*Kirkus Reviews* (starred review)
